

Rajah Quilt Retreat Quilt Project

I hope that you like it!!

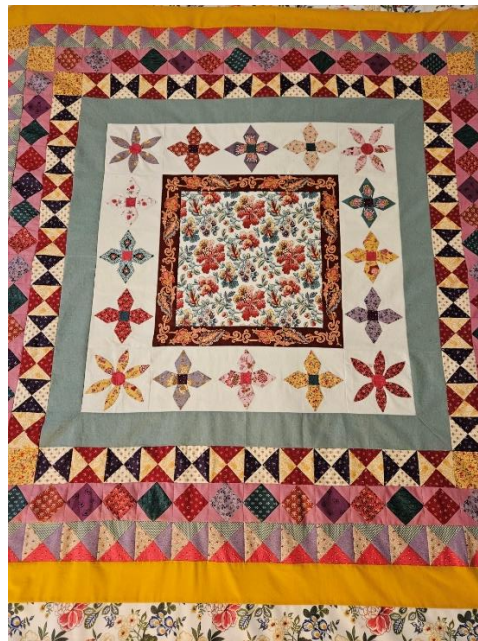

I have made this design with the original quilt in mind. I have also decided to make it my own by adding options in design and size that will lend itself to any level or style of quilter.

The quilter can determine the finished size. The main section shown below is bordered by a 3" wide mustard border at 60" square. You can choose to continue adding borders as shown in the full pattern and finish your own design as large as you choose.

I have also added options for block designs that you may prefer in place of the amount of applique. I have used the Applique paper method with machine sewing. I have used the Hugs and Kisses Applique paper method which I can't wait to demonstrate.

In keeping with the tradition of the original Quilt I have decided to applique the birds into the centre, again this is optional.

I have decided to complete my quilt with a border at the 60" size. I have added a 10" border which makes my finished size 80"x 80"

I encourage you to make this design your own. I can't wait to see what variations we can all come up with.

I have created a kit for the centre sections, up to the green border, border 3. Cost \$55.00

Kit includes:

1 50cm x 50cm Central Feature Fabric piece
1 50cm x 50cm Central Border Feature Fabric piece
